Play My Song

Verse 2 Try to imagine how good it could be

If you settled down and stayed with me
If we build ourselves a tiny little house
And you kept a small pet, maybe a mouse
If things went wrong you wouldn't have to worry
And I would make sure
that you never was sorry
And I had to play my song for you

Verse 3 If the weather was bad with an ice-cold breeze

I'd lit up the fireplace so no one had to freeze
I'd get you your coffee or your afternoon tea
and you would hug and make room for me
We would be sitting for a little while
Then you would call
our only child
And I had to play my song for you

Play My Song

Verse 4 When we get old things would even be better
We would surf on the Internet to see what we
could get there
If you bought yourselves something for a
start
You'd always pay with my credit card
But you'd always add a cute little piece
you'd give it to me
with a seductive little "please"
And I had to play my song for you

Verse 5 Grandchildren would be there of course
Coming from the same old romantic source
They would be riding on my knee

Play My Song

If I held them tight they would scream to be
free

And we would spend all day with them
Until their parents finally came
And I had to play my song for you

Verse 6 This is a little song I wrote the other day
I thought I had something important to say
I was sure that you would make me smile
If I only held back a little while
But you didn't notice that I was there
You gave me the eye
and just didn't care
And I had to play my song for you
