

## *Bodie Island Lighthouse Restored*

After undergoing a three-year renovation to replace corroded ironwork, repair worn and weathered stone and brickwork, and to strengthen supports for the ten flights of spiral stairs, the Bodie Island Lighthouse was relit in April 2013 and opened to the public for climbing for the first time in its history. It will be the fourth Outer Banks lighthouse—after Cape Hatteras, Cape Lookout, and Currituck Beach—to allow the public to climb to its top.
