

About us

The SpaExclusea-V company was established in 2006.

We provide the Dead Sea Experience worldwide by: floating, health and relaxation.

Our company's engineers have vast experience in the development and maintenance of mechanic systems in extreme environment conditions.

We believe that the Dead Sea is part of an approach viewing wellness as a way of life affecting the quality of our lives and health.

An innovative closed green system free of sewage and chemicals along with protecting the environment.

It's a profitable system 24/7 for the client's benefit.

Our engineers and designers will accompany you through the whole process.

Our product

- Our flagman product is a unique and luxurious spa bath with the real Dead Sea Water.
- It's approved by Israel's Ministry of Health.
- We're flexible in adjusting the size and design of the bath to the customer's needs.
- A climate installation imitating the Dead Sea climate in the sparoom and generating the air with minerals which exists around the Dead Sea.
- Special bulbs imitating sun rays similar in their frequency to the healing sun rays existing around the Dead Sea.
- A mixing and heating pot for Dead Sea mud for mud masks to nourish the skin.
- Totally organic Dead Sea-based therapeutic spa products.

The Dead Sea

The Dead Sea and its therapeutic properties have been famous for thousands years.

The Romans carried the Dead Sea water in ships to Roma's royal bathhouses to be used by Roman emperors.

Virtues of 26 salts and rich minerals provide nourishment and care for the skin.

The Dead Sea water's specific gravity sets the bather afloat in the Dead Sea water.

According to an independent research by the NASA, hovering and floating for a set period of time contributes to the health and mental and physical immunity of a person by virtue of the lack of resistance to the gravity of the Earth.

Our Advantage

- The Dead Sea-based spa bath is profitable 24/7 with continuous operation with no human intervention needed.
- The real Dead Sea water shipped in a container directly from the Dead Sea.
- Green system with no sewage and chemicals.
- Dead Sea spa system approved for public use by the Israel's Ministry of Health.
- The system is mobile and can be installed dismantled and transferred from place to place as per the client's needs.
