CREATIVE JOBS FOR CREATIVE YOUTH

"AFH was a pleasure to work with in all regards. The large scale commissioned wall piece made for one of our apartment complexes is just gorgeous. The entire process, start to finish, was seamless! AFH creates incredible work, executing with the highest level of craftsmanship and professionalism. We look forward to working with you again."

– Jennie Kalberer,
Gerding Edlen

"AFH saw the "problem" and created a stunning mural. Working with the students and staff of AFH is a great experience. They are energetic, enthusiastic, creative and above all professional. AFH is my go-to place for any graphic design project."

WHAT CAN WE CREATE FOR YOU?

Artists For Humanity inspires solutions – both big and small – to meet our clients' needs. We offer a wide range of fine art and design services for hire across four creative studios: **3D Design, Painting, and Digital Media - Graphic Design, Video & Motion, and Photography**. Professional artist/designer mentors work collaboratively with teen artists and designers to create engaging, innovative products and experiences for business, civic, and individual clients.

As one of the largest employers of youth in the City of Boston, with 250+ under-resourced teens employed as artists and designers each year during critical out-of-school hours, we offer a unique opportunity for partnership. Each new project is highly valued as an opportunity to make great art and design while building long term relationships - it's what makes an Artists For Humanity project both high impact and conversation worthy!

EXHIBITIONS

AFH has an extensive collection of art that it draws from to curate customized exhibitions. We work closely with businesses to assess their artwork needs in relation to their vision and physical space. All artwork is produced by teen artists who, through their paid employment at AFH, gain guided exposure to real world clients. AFH's EpiCenter is host to one of the largest collection of youth-created works in the country, and we organize 50-75 public exhibitions annually at public and corporate sites.

PAINTING

AFH is host to one of the largest collections of youth-created fine art. Our collection is bold, exciting, and reflective of the new vision of a culturally diverse Boston and beyond. We create works for exhibition, commissioned paintings for public spaces and private collections, interactive painting experiences and murals. An AFH mural can transform nondescript walls into architectural masterpieces and infuse corporate and community identities with powerful imagery. From realistic urban scenes to colorful, fun abstractions, our teen artists, guided by professional artist mentors, are capable of creating a variety of powerful commissioned images.

3D DESIGN

The 3D Design studio explores three-dimensional construction arts. Concepts are taken from sketch, to drawing, to model, to full execution. Team members use computer-aided drafting programs and conduct trials with materials to understand their properties and applicability to the project. Through demonstrations, innovation and experimentation, the team works with a variety of fine art and industrial tools and materials, with special focus on reclaimed materials. AFH's 3D Design studio has gained national attention for fabricating unique bike-racks, large-scale sculptures, architectural details, monument signage, eco-friendly furniture and more – infusing the zest and unpredictability inherent in young people “making things.”

PHOTOGRAPHY

The Photography Studio creates fine art, documentary, and commercial photography in both traditional and digital platforms. The studio markets their own commercial services through portraiture, product photography, fine art documentation, reproduction prints, event photography, and more. Our teen photographers practice various types of photography through on-the-job training and commission work for clients. They utilize the skills learned in studio to execute lighting techniques, photo editing/retouching, analog photography, darkroom techniques, and to create final products on several print, web, and digital mediums.
